The review of the above listed QAPP has been completed. The QAPP was prepared by Anchor QEA, LLC for Jorgensen Forge Corporation. In general, the reviewer finds the documents complete, informative and very well-organized. The QAPP covered all the QA elements required by USEPA for a QA Project Plan and is hereby approved. Environmental data collection, generation and/or use can commence as scheduled in the QAPP.

Please send me the final signed Signature and Approval pages of the document. Contact me at [grepo-grove.gina@epa.gov](mailto:grepo-grove.gina@epa.gov) or 206-553-1632 if you have questions.
